

IN THE DRAWINGS

A proposed change to Fig. 6 is submitted herewith, with a
Submission of Drawing Changes for Approval.

REMARKS

Reconsideration and allowance are respectfully requested in light of the above amendment and the following remarks.

Fig. 6 has been amended to overcome the objection thereto. Specifically, Fig. 6 has been amended to include reference character 300.

Regarding the objection to the specification based on the lack of description for Fig. 7, the Applicant respectfully submits that a description of Fig. 7 is provided in the specification at least on page 18, lines 15-17. Thus, withdrawal of the objection to the specification is deemed to be warranted.

Claims 1, 4, and 7 stand rejected, under 35 USC §103(a), as being unpatentable over Kim et al. (US 2002/0061764) in view of Kim et al. (US 2003/0231612). Claims 2, 3, 5, 6, and 8 stand rejected, under 35 USC §103(a), as being unpatentable over Kim '764 in view of Kim '612 and Hamabe (US 2002/0115467). The Applicant respectfully traverses the rejections.

Applicant notes that Kim '612 is applied as a section 102(e) reference, having a filing date of June 16, 2003. This date is antedated by the Applicant's foreign priority date of August 20, 2002. The Applicant encloses a verified English translation of Applicant's Japanese priority document, JP 2002-239744, with a statement that the translation is accurate. It is submitted that

JP 2002-239744 supports all pending claims. Thus, the effective date of Kim '612 as a prior art reference is overcome.

Therefore, allowance of claims 1-8 is warranted.

In view of the above, it is submitted that this application is in condition for allowance and a notice to that effect is respectfully solicited.

If any issues remain which may best be resolved through a telephone communication, the Examiner is requested to telephone the undersigned at the local Washington, D.C. telephone number listed below.

Respectfully submitted,
